BESPOKE BY NATURE

Made for your space.

Every Kaya Atelier piece is bespoke and handmade to order. The designs shown in this lookbook can be tailored to suit your interior, including changes to dimensions, proportions and finish. Pieces can also be produced in a wide selection of marble colours and stone variations, subject to material suitability and availability. As natural stone is inherently unique, variations in colour, veining and pattern are part of the individual character of every piece.

For bespoke sizing, material selections and custom enquiries, please contact our studio.
